

BREAST IMPLANT HEALTH SUMMIT 2022

Dear Healthcare Provider:

I am pleased to introduce you to the 2022 Breast Implant Health Summit (BIHS). This Virtual Event is designed to educate health care providers and will take place over three days on October 20th, 21st, 22nd, and 23rd. Haymarket Medical Education has granted/sponsored 4 specific presentations for CE credit. (AMA, ANCC, AAPA) The presentations will take place on Saturday morning and must be watched live to qualify for CE credit, *presentations to be announced.

A key goal of the summit is to provide healthcare providers with patient-centered tools and strategies to help them better care for patients experiencing breast implant-related health concerns. In this global health initiative, health experts will share their studies, practical applications, and address current topics within the breast implant community as it pertains to providing health information. A major objective is to train healthcare professionals on how to navigate and support patients with implantable devices, such as breast implants.

You and your colleagues may benefit from learning more about the Breast Implant Health Summit. You can learn more, access resources, and register for the Breast Implant Health Summit at **www.BreastImplantHealthSummit.com**

Registration Fee: \$250 before October 1st, \$350 after October 1st.
Post-conference, the presentations will be accessible for 4 months.

Sincerely,

BIHS Team
